TELEGRAM FROM WHITE HOUSE

Exclusion of Japanese Children From Schools Worst Bill of All.

Sacramento, Cal., Feb. 4.—With the defeat in the lower house today of two of the anti-Japanese measures, followed by the unexpected passage of a third bill segregating Japanese school children in separate schools along with Chinese, Koreans and other Asiatics, regarded as the most offensive measure of all, President Roosevelt again has taken a hand in the anti-Japanese legislation in the state legislature, which for the last week has drawn international attention to California. Hardly had the bill been passed by the assembly before Governor Gillett received the following message from the president:

"Washington, February 4, 1909. 'J. N. Gillett, Governor of California: 'Your kind letter just received. What is the rumor that the California legislature has passed a bill excluding the Japanese children from the public schools this, the most offensive bill of all, and in my judgment is clearly unconstitutional and we should at once have to test it in the courts. Can it be stopped in the legislature, or by veto?'

"THEODORE ROOSEVELT." Governor Gillett immediately wired a reply to the president and asked for an answer at once. He refused to discuss the nature of the message to Washington, but will make all the correspondence by wire public upon the receipt of the president's next telegram, if possible.

The bill passed today, which was one of three anti-Japanese measures, introduced by Assemblyman Grove L. Johnson, places the Japanese in the same classification with other Asiatics and inserts the word "Japanese" in the present state statute, providing for the segregation in separate schools of "Mongolian" children. By this action the lower house of the California legislature has taken the step which the board of education of San Francisco intended to take two years ago, but which was abandoned after the board and former Mayor Eugene E. Schmitz, were called to Washington and had several conferences with President Roosevelt.

At that time it was contended by the Japanese that they were not "Mongolians," who resented the efforts to place them in the same class with the Chinese, Koreans and other Asiatic races and the question was also raised whether, under the state statute the segregation of Japanese school children could be enforced in the absence of specific mention of the word "Japanese." Upon the return from Washington, the San Francisco school board at that time contented itself with the adoption of a rule limiting the age of pupils that would be permitted to attend the lower grades of the public schools, one of the principal objections to the Japanese being that adults were attending the primary grades and in daily association with white children of tender years.

Unexpected and a surprise was the subject of the Japanese school segregation bill. After the defeat yesterday of Drew's anti-alien land bill, which was generally believed to foreshadow the rejection of all the measures aimed at the Japanese, followed by the defeat today of two more anti-Japanese bills, the result of the vote on the school segregation question was entirely unlooked for. Immediately upon the learning of the assembly's action, Governor Gillett called into consultation Speaker Stanton and the Republican leaders of both houses of the legislature. The latter expressed the hope of still being able to defeat the measure in the assembly upon reconsideration, and it was with this in view that Assemblyman Walter Leeds of Los Angeles, after roll call, changed his vote from no to yes, and gave notice that tomorrow he would give notice to reconsider the vote of 25 to 26, by which the bill was passed. It will require 41 votes to carry Leeds' motion. In the event that it is adopted, it is freely predicted tonight that one of the fiercest battles ever waged in the California legislature will result in the effort to kill the bill.

The assembly debated all day on the three anti-Japanese bills. The first one taken up preventing aliens from being members of boards of directors, was beaten easily, the vote standing 54 to 15. The next, providing for the segregation in residential districts of all undesirable aliens, resulted in a tie vote—37 to 37—the measure being defeated by being four votes short of a majority. Johnson of Sacramento, its author, changed his vote from aye to no, in order that he might give notice of reconsideration.

Following is the full text of the school bill.

"Section 1—Section 1662 of the political code is hereby amended so as to read as follows:

"1662—Every school, unless otherwise provided by law, must be open for the admission of all children between 6 and 21 years of age, residing in the district, and the board of school trustees or city board of education have power to admit adults and children not residing in the district, whenever good reason exist therefor. Trustees shall have the power to exclude children of filthy or vicious habits, or children suffering from contagious or infectious diseases and also to establish separate schools for Mongolian children and for children of Mongolian or Japanese or Chinese descent. When such separate schools are established, Indian, Chinese, Japanese or Mongolian children must not be admitted into any other school; provided, that in cities and towns in which the kindergarten has been adopted or may hereafter be adopted, no child of the public primary schools, children may be admitted to such kindergarten classes at the age of four years; and provided, further, that in cities or school districts in which separate classes have been or may be hereafter established, for the instruction of the

deaf, children may be admitted to such classes at the age of three years." Johnson's other measure, the vote on which is to be reconsidered, is in full as follows:

"Section 1—Whenever in the opinion of the governing body of any municipality the presence of undesirable, improper and unhealthy persons, or the presence of persons whose practices are dangerous to public morals, and health and peace is deemed to exist in the said municipality and dangerous to the public morals and health and peace of said municipality and its inhabitants, the said governing body is hereby empowered to so declare by ordinance the district limits within which said persons shall reside in said municipality, and thereafter it shall be unlawful for any person of the class so declared to reside in any other portion of said municipality than within the said district and limits so fixed.

"Section 2—A violation of the provision of this act shall be deemed a misdemeanor and shall be punished as such."

Governor Gillett is preparing tonight a message to be sent to the assembly tomorrow, asking that body to reconsider the vote by which it passed the bill compelling Japanese children to attend separate schools. This intended action is the result of a message received from President Roosevelt, today, appealing to him to devise some means of blocking this measure in the legislature.

The governor's message to the assembly tomorrow will be a strong appeal to the members to stand by the administration and will deal with the question of treaties with Japan and other nations.

Grove L. Johnson's bill, compelling Japanese to attend separate schools, passed the assembly at noon by a vote of 45 to 26.

Mr. Johnson's other bills, prohibiting aliens from being members of boards of directors and restricting them in residence districts at the option of boards of supervisors, were defeated, the former by a vote of 54 to 15. The latter measure failed of passage because of a tie vote, the proponents of the bill being unable to muster the required 41 votes. Roll-call finally stood 37 to 37, after a call of the house and several changes from aye to no and vice versa. Johnson, of Sacramento, author of the measure, changed his vote from aye to no and moved to reconsider tomorrow.

Walter Leeds, of Los Angeles, changed his vote from no to aye on the school bill and moved to reconsider that also.

The debate was limited to thirty minutes for each side on all the bills and the speakers advanced practically the same arguments that were made yesterday afternoon on A. M. Drew's anti-alien land bill, which was defeated.

There was little support of the corporation measure, the votes for the bill falling thirteen short of the number cast for the Drew bill.

The principal debate was upon the residential segregation bill. Many who voted against the land and corporation measures announced that they favored segregation of undesirable aliens because that was effective anti-Japanese legislation. Beardslee of Stockton, Transue, Hanlon, Reed and Cattell of Los Angeles, spoke against it, taking the ground that it was unconstitutional and would interfere with the friendly negotiations of the federal government with Japanese to stop immigration.

Shortly after the disposal of the Johnson bill, Mr. Drew moved that the vote by which his land bill was defeated yesterday be reconsidered. He offered to amend the measure by striking

out a section which, it had been declared, violated the treaty rights of several nations. He declared that, as the school bill had just been passed, and that was the one against which the President objected most strenuously two years ago, the assembly should go a step farther and pass the land bill also.

The motion was lost, the vote being 36 ayes and 38 noes. This showed a gain of ten votes for the proponents of the bill.

CHICAGO WILL BE A "WET" TOWN FOR ANOTHER YEAR

Chicago, Feb. 5.—Chicago will be a "wet" town for another year at least. The movement by the "dry" party to have the people vote at the April election on the question of excluding saloons from the city under the local option law has fallen down. They started out to obtain the necessary 100,000 petitioners to place the question on the ballot, but got less than 50,000.

The failure of the movement has been reported to the "No License" committee which has decided to make another effort next year. It has authorized the organization of a committee of 100, each member of which shall pledge himself to subscribe \$20 and obtain 1,000 signatures to the petition.

The chairman says the failure resulted from too much confidence. Each worker, he declared, thought too many others were engaged in the circulation of petitions that he would not have to exert himself unduly. The result was that the work was only half done. He denies that the movement has suffered from the falling out between the prohibition and other anti-saloon organizations.

RUNAWAY BOYS ARE EAGER TO RETURN HOME

Chicago, Feb. 5.—After two weeks of "life on the road," three boys of Buffalo, N. Y.—all of them high school graduates—are in Chicago on their way back east and have been given food and shelter by the police.

Their experiences in roughing it, they say, would fill a book. They have ridden the bumpers of freight trains, lived on "hand-outs" and free lunch, raised money by pawning their clothes, slept three in a bed and one of them was in a hospital five days at Joliet.

They intended to go to Colorado, but their funds gave out.

The adventurers are Ralph Lefavir, Pearl Elliott and Rodney McMahon.

DRY FARMING EXHIBIT.

Cheyenne, Wyo., Feb. 5.—Professor W. H. Olin has announced the appointment of Professor B. C. Buffum of Worland, Wyoming, as one of the judges of the dry farming exhibits which will be displayed during the trans-Missouri dry farming congress to be held in Cheyenne. Professor Buffum has been a director of the experimental station at the University of Wyoming for many years and was formerly connected with the Colorado Agricultural college. The Denver Chamber of Commerce has donated three silver cups as prizes for the best Colorado exhibit at the congress. The Denver Post has also donated a cup.

OF Two Evils.

"Benedict's wife came for him at the club last night," said Galey. "Wasn't that humiliating?"

"Well," replied Galey, "I don't know whether it's worse for your wife to come for you at the club or go for you after you've got home from the club."
